DETAILED ACTION

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention:

Embodiment 1 of Figures 2 - 5

Embodiment 2 of Figures 6 - 9

Embodiment 3 of Figures 10 and 11

Embodiment 4 of Figures 12 and 13

Embodiment 5 of Figures 14 and 15

Embodiment 6 of Figures 16 and 17

Embodiment 7 of Figures 18 – 20

Embodiment 8 of Figure 21

Embodiment 9 of Figure 22

Embodiment 10 of Figure 23

Embodiment 11 of Figures 24 and 25

Embodiment 12 of Figure 26

Embodiment 13 of Figures 27 – 30

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Art Unit: 2811

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
